

# ONKAR VINOD VICHARE

SOFTWARE TEST ENGINEER

PHONE | (+91) 8419990792  
EMAIL | onkarvichare92@gmail.com  
LOCATION | Mumbai, INDIA  
EXPERIENCE | 6 Years 0 Month

## Key Skills

- Project Coordination
- Client Coordination
- Project Documentation
- PMO
- Project Execution
- User Acceptance Testing
- SQL
- JIRA
- Wireframing
- Requirement Gathering
- Client Interaction
- Java
- SDLC Life Cycle
- MS Office
- Team Handling
- Gap Analysis
- FRD
- Brd
- User Stories

## Certification

- Advanced Professional Automation Test Specialist
- Professional Software Test Specialist
- Image Management (Soft Skills)

## Languages

- English
- Hindi

## Profile Summary

As a Quality Analyst with over 7.5 years of experience, I have specialised in manual and automation testing, focusing on maximising customer satisfaction, process compliance, and software quality. I have improved software quality and reduced defects through the introduction of defect and requirements management tools, requirements gathering, and testing best practices. I have extensive experience in conducting GUI testing, sanitysmoke testing, integration testing, system testing, regression testing, and UAT testing. I have utilised a wide range of tools, including JIRA, Monday.com, Selenium IDE, SQL, JSON, and HTML. I have also developed comprehensive test plans and test cases, estimated and coordinated testing activities, and effectively tracked and managed bugs..

## Work Experience

### Software Test Engineer

Algorithms Software  
07/2024 - Present

Contributed to quality assurance for a leading construction ERP suite through comprehensive manual, automation, and API testing, managing end-to-end test processes in Azure DevOps by analyzing business logic from FRDs and SRS documents to develop detailed and effective test scenarios. Authored user stories and use cases proactively to address requirement gaps, enhancing test coverage and project clarity, while executing mobile testing using Appium and cross-browser validation leveraging BrowserStack to ensure consistent performance across platforms. Maintained proactive defect documentation to

2013

Maharashtra , English

Grade - 45-49.9%

### **10th**

2011

Maharashtra , English

Grade - 65-69.9%

## Projects

### **Xpedeon ERP**

275 Days

Handled QA for construction ERP system with modules like project planning, budgeting, procurement, resources, inventory and compliance. Currently migrating old desktop EXE app to web version, focusing on API, functional and database testing for smooth performance across platforms in Agile setup

### **ADM: Ecommerce Project**

90 Days

Performed detailed test case design and executed tests. Documented and analyzed all test results and made recommendations. Published test summary reports. Planned and executed regression testing and automation of regression testing processes. Coordinated with project managers and IT department to ensure time management.

### **BMW Lifestyle**

853 Days

Developed frameworks and collaborate with QA team and developers in the development of automated testing scripts the product. Communicated test plan status to the QA Manager and Project Manager to promote effective critical path decisions for the release.

Assisted in establishing Quality plans for projects in line. Managed and responded to system and deployment requests from development, QA and client teams. Implemented frameworks for testing browser-based apps, Web reports, data layer API transactions and conduct performance testing. Identified all test cases to support the development of new features before development starting.

#### **BMW Website - India, Japan, Korea**

1309 Days

Contribute to quality assurance for AEM websites and mobile applications through comprehensive testing using detailed checklists and established methodologies to ensure optimal functionality, while validating cross-browser and cross-device performance for a seamless, responsive user experience across platforms. Beyond execution, actively drive team development by training members on testing best practices and managing task assignments to deliver projects on time with high quality.

#### **Pretture - ERP software**

670 Days

Test case preparation, Execution and reporting defects. Analysis of requirements from the clients and getting it developed by team. Providing support and Training to the clients on software. On-premises setup and training of the software setup. Regression testing and features testing after new release.

#### **Live Site Project - Canon(Website), Lionbridge(Website), VMware, Microsoft VM**

214 Days

Live Testing of the website on various browsers. Testing site on various versions of browsers and devices. Bug reporting and regression testing on resolved bugs.

#### **Adobe - Indesign, Animate, Illustrator**

214 Days

Execution of test cases and reporting bug. Regression and retesting on fixed bugs. UI/UX Check. Functional Testing. Developed and executed automated and manual test cases for Adobe Suite software to identify potential issues, reported and tracked bugs and verified bug fixes.
